1. The following is an examiner's statement of reasons for allowance: as to claims 1, 10 and 21, the prior art of record fails to show or suggest the step of preventing liquid (as with liquid remover) that has adhered to and ascended with the second edge from descending down towards the incoming first edge, furthermore, claims 10 and 21, the limitation of the extruder and nozzle mounted at a position just before the overlap; and as to claim 9, the prior art of record fails to show or suggest the step of directing a jet of hot gas towards an area spanning adjacent convolutions of the strip thereby creating a void within the liquid and welding adjacent convolutions of the strip together within the gas void. The prior art, such as WO 98/34742, Kitahashi et al #5799,701, and Akimoto et al #2004/0013472, discloses method and apparatus for lining a conduit with a strip that is spirally wound; however, the all fail to show or suggest preventing or removing liquid as the edges of the strip are connected.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
